Student Evaluation of Teaching (SET) for Split Classes

This survey enables you to rate both your instructor and the course for the purpose of providing important feedback for the instructor and the College. In order to ensure confidentiality, instructors will not have access to individual student responses but will receive summary results after final grades have been submitted. An open response section is provided at the end of the survey for your comments.

If you feel that you don’t have sufficient information to provide feedback in an area, you may leave a question unmarked and move to the next one.
