Southwest Tennessee Community College
2010 Strategic Planning Report

A. EXECUTIVE SUMMARY (2005-10)

Southwest Tennessee Community College successfully completed the final year of improvements sought through the college’s five-year strategic plan. Southwest attained 98% of its benchmarks since the plan began in 2005-06 and achieved the following important results.

**Goal 1. Strengthen and Enhance the College’s Impact in the Community**

- Implemented Early College program at Middle College High School. Over 400 students earned college credits toward future degrees.
- Provided workforce assessment and development service to local businesses and agencies
- Enabled students in over 100 classes to support the community through Service Learning
- Upgraded instructional technology for students in 104 classrooms
- Established computer resource room in eight high schools to link with Southwest network

**Goal 2. Provide Access and Commitment to Meet Needs of a Diverse Community**

- Reorganized Student Services unit to increase support to students
- Partnered with Fayette-Ware High School to orient 90% of its students on financial aid support
- Initiated new AAS degree in Biotechnology and graduated first cohort of students
- Initiated new Homeland Security certificate program to help businesses assess risks
- Improved safety of students and quality of grounds at both campuses
- Implemented Diversity Plan to provide retention support to over 2,000 disadvantaged students

**Goal 3. Provide Educational Programs and College Services that Enhance Effective Learning**

- Improved student completion rate in Nursing program from 64% to 76%
- Constructed new library and academic classroom buildings and opened new entrance on Macon Cove Campus, constructed new Maxine Smith Center in southeast Shelby County, and began construction of new Nursing-Biotechnology Building on the Union Avenue Campus
- Established new Center for Faculty Development that served over 600 faculty
- Conducted professional development programs for campus police officers
- Implemented Quality Enhancement Plan for AAS in Office Administration
- Conducted 42 projects to improve student instruction, learning, and retention

**Goal 4. Optimize Current Resources and Expand Sources of Support**

- Established peer benchmarking database for financial management
- Raised $7.2M for new Nursing-Biotechnology Building and received $3.3M in grants
- Established four sites and programs for small business development
- Implemented financial and timekeeping systems to improve efficiency

Through the achievement of these strategic goals, Southwest Tennessee Community College strengthened its quality and accessibility. Consequently, students, citizens, and community businesses gained greater opportunities to benefit from Southwest’s programs and services.
In 2004, the Tennessee Board of Regents (TBR) established four statewide priorities with matching system strategic goals. Each member institution was required to develop strategic goals parallel to the system goals; additional institutional strategic goals were acceptable. Under each strategic priority, the Board also defined specific types of institutional outcomes that each member institution should address during the development of its 2005-2010 strategic plan. That TBR planning framework provided the structure for Southwest’s strategic plan and is presented below.

**TBR Priority 1: LEADERSHIP**
The Tennessee Board of Regents System will provide leadership in promoting educational aspirations and accomplishments for Tennesseans that further economic development and improve the quality of life for the citizens of the State.

**TBR Strategic Goal 1**
The TBR System and its institutions will promote, document, and communicate to all stakeholders the value of higher education’s outreach, educational, and research capacity to the economic development and quality of life for the citizens of the State.

**TBR-Defined 2010 Institutional Outcomes**
Institutions will have exhibited patterns of evidence, appropriate to mission, showing institutional leadership for:

1. **P-16 initiatives**
2. **Workforce development**
3. **Civic responsibility**
4. **Effective use of technology**
5. **Research, service, and outreach**

**TBR Priority 2: ACCESS TO LEARNING**
The Tennessee Board of Regents System will strategically provide access to higher education to an increasingly diverse population.

**TBR Strategic Goal 2**
The TBR System and its institutions will demonstrate commitment to enhancing the rate and diversity of participation in higher education by Tennesseans.

**TBR-Defined 2010 Institutional Outcomes**
Institutions will have exhibited credible patterns of evidence, appropriate to mission, showing effectiveness in:

1. **Increasing the rate and participation in higher education of target populations**
2. **Demonstrating “fit” of programs and services for existing and emerging job markets**
TBR Priority 3: QUALITY
The Tennessee Board of Regents System will be accountable for the quality of programs and services in a changing and increasingly global educational market.

TBR Strategic Goal 3
The TBR System and its institutions will define, monitor, improve, and communicate the quality of programs and services.

TBR-Defined 2010 Institutional Outcomes
Institutions will have, appropriate to mission, exhibited credible patterns of evidence showing:

3.1 Effective programs and services
3.2 Effective recruitment, development, and retention of faculty as the primary resource in academic program improvement
3.3 Effective recruitment, development, and retention of staff
3.4 Benchmarked quality attainment compared to national peers
3.5 Development or pursuit of the SACS Quality Enhancement Plan or, for technology centers, COE quality initiatives to demonstrate improvement in student learning

TBR Priority 4: RESOURCEFULNESS
The Tennessee Board of Regents System will meet fiscal constraints through strategic development and management of financial, physical, human, and information resources as well as through entrepreneurial and innovative strategies built on collaboration in an increasingly deregulated environment.

TBR Strategic Goal 4
The TBR System and its institutions will address fiscal constraints by advocating for appropriate levels of state support and by managing resources, benchmarking best practices, developing and documenting other sources of support, pursuing collaborative and entrepreneurial initiatives, and removing obstacles to competitiveness.

TBR-Defined 2010 Institutional Outcomes
Institutions will have exhibited credible patterns of evidence, appropriate to mission, that document:

4.1 Use of benchmarking tools in resource management decisions
4.2 Attainment of other sources of support
4.3 Nature and impact of its pursuit of entrepreneurial initiatives
C. STRATEGIC PLANNING AT SOUTHWEST TENNESSEE COMMUNITY COLLEGE

The Strategic Plan at Southwest Tennessee Community College guides critical long-range improvements throughout the five-year state strategic planning cycle, 2005-2010. The plan addresses key institutional development needs within the context of institutional mission, institutional vision, and Tennessee Board of Regents system priorities. The original plan contained four strategic goals implemented through eighteen strategic objectives. Three additional objectives were added at the beginning of fiscal year 2007-08.

Institutional Mission Statement

SOUTHWEST TENNESSEE COMMUNITY COLLEGE is the comprehensive, multicultural, public, open-access college whose mission is to anticipate and respond to the educational needs of students, employers, and communities in Shelby and Fayette counties and the surrounding Mid-South region. The college provides citizens with an effective teaching and learning environment designed to raise educational levels, enhance economic development, and enrich personal lives.

To fulfill its multipurpose mission, the college:

- Offers a broad range of learning opportunities in technical, career, general, transfer, developmental, honors, and continuing education
- Offers associate degrees, certificates, and courses to prepare students for employment, career advancement, personal enrichment, and college and university transfer
- Increases educational access through technology-assisted instruction, distance learning opportunities, and multiple locations
- Initiates partnerships and public service activities for workforce development and lifelong learning throughout the community
- Implements articulation agreements and collaborative activities with high schools, technology centers, colleges, and universities
- Attracts and retains diverse faculty, staff, and students
- Delivers effective academic programs, student support services, and administrative services through quality personnel, current technology, and continuous planning, evaluation, and improvement

SOUTHWEST TENNESSEE COMMUNITY COLLEGE is committed to the education of a non-racially identifiable student body and promotes diversity and access without regard to race, gender, religion, national origin, age, disability, or veteran status.

SOUTHWEST TENNESSEE COMMUNITY COLLEGE is a member of the State University and Community College System of Tennessee under the governance of the Tennessee Board of Regents.

Institutional Vision Statement

SOUTHWEST TENNESSEE COMMUNITY COLLEGE will become the college of choice and a national model for technical, career, and transfer education by fostering student success, transforming lives, and strengthening the diverse community.

**Annual Attainment Level:**
- Completed: Attained Entire 5-Year Objective
- Exceeded: Attained More Than Annual Benchmark (100%+)
- Met: Attained Annual Benchmark (90-100%)
- Nearly Met: Attained Most of Annual Benchmark (80-89%)
- Not Met: Attained Some or None of Annual Benchmark (0-79%)

*Goals and Objectives Added or Modified since 2006-07
F. STRATEGIC PLAN OBJECTIVES, BENCHMARKS, AND RESULTS

TBR PRIORITY 1: LEADERSHIP
Southwest Strategic Goal 1.1 Strengthen and enhance the college’s impact in the community

Strategic Objectives Results-Page
1.1.1 Complete the Implementation of the Early College Program at Middle College High School 10-11
1.1.2 Expand Workforce Development Service to the Community 12-13
1.1.3 Incorporate Service Learning Into the Curriculum 14-15
1.1.4 Expand and Improve the Technological Infrastructure for Administration and Distance Education 16-17
1.1.5 Complete Implementation of the High School Initiative 18-19

TBR PRIORITY 2: ACCESS TO LEARNING
Southwest Strategic Goal 2.1 Provide access and commitment to meet the needs of a diverse community

Strategic Objectives Results-Page
2.1.1 Reorganize Structure and Services of Student Services Area 20-21
2.1.2 Establish Collaborative Partnership with Fayette County Public School To Address Educational Needs of At-Risk Students 22-23
2.1.3 Implement the A.A.S. Degree in Biotechnology 24
2.1.4 Develop a Certificate in Homeland Security 25
2.1.5 Enhance and Foster a Welcoming Intellectual, Cultural, and Physical Environment That Is Open, Supportive, and Sensitive 26-27
2.1.6 Implement College Diversity Plan (New for 2008-09) 28

TBR PRIORITY 3: QUALITY
Southwest Strategic Goal 3.1 Provide educational programs and college services that enhance effective learning

Strategic Objectives Results-Page
3.1.1 Define and Improve the Outcomes and Effectiveness of the Nursing Program 29
3.1.2 Improve and Expand Facilities to Meet Student Needs and Growth Potential 30-31
3.1.3 Establish Center for Faculty Development 32-33
3.1.4 Increase Professional Development Opportunities for Staff 34-35
3.1.5 Pursue Certification of the Developmental Studies Department by the National Association of Developmental Education (NADE) 36
3.1.6 Implement SACS Quality Enhancement Plan (QEP) for AAS in Office Administration 37-38
3.1.7 Strengthen Direct and Indirect College Support for Student Instruction, Learning, and Retention 39

TBR PRIORITY 4: RESOURCEFULNESS
Southwest Strategic Goal 4.1 Optimize current resources and expand sources of support

Strategic Objectives Results-Page
4.1.1 Expand Sources of Benchmarking Data for Budget and College Management 40
4.1.2 Increase Level of External Resources To Strengthen the College’s Ability To Meet Community Needs 41-42
4.1.3 Expand Services of Tennessee Small Business Development Center 43-44
4.1.4 Improve Fiscal Accountability and Management 45
Southwest Tennessee Community College
2005-2010 Strategic Planning Goals and Achievements

**TBR Priority 1. LEADERSHIP**

**Southwest Goal 1.1** Strengthen and enhance the college’s impact in the community

**Objective 1.1.1** Complete the implementation of the Early College Program at Middle College High School

**Coordination** Academic Affairs (J. Bassett, B. Helton)

**Supports** TBR Institutional Outcome 1.1: P-16 Initiative

**Baseline Year and Description** (2004-05) Southwest Tennessee Community College neither tracks nor monitors the admission or retention rates for students who participate in Middle College High School (MCHS) Early College Program. An estimated 60 Middle College High School students participated in an Early College program to enroll in college credit classes. This represented approximately one-fourth of the 230 students enrolled at MCHS.

**Annual Benchmarks and Actual Performance**

**2005-06**

**Projected Results:** Previous MCHS student data will be analyzed for tracking and monitoring possibilities. A tracking and monitoring plan will be devised and pilot tested for the analysis of the 2004-05 entering 9th grade class (Cohort 1) and the 2005-06 entering 9th grade class (Cohort 2). The Early College program will be extended to more students. As a result, at least 40% of MCHS students will participate in the Early College Program.

**Actual Results:** Southwest’s Early College Program enrolled 52% of Middle College High School students in college classes. (100%+ attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)

**2006-07**

**Projected Results:** A complete tracking and monitoring system will be implemented for MCHS entering 9th grade classes of 2004-05 (Cohort 1), 2005-06 (Cohort 2) and 2006-07 (Cohort 3). The Early College program will be extended to more students. As a result, at least 45% of MCHS students will participate in the Early College Program.

**Actual Results:** Demonstrating the purpose and value of the program, two MCHS students who participated in the Early College program not only graduated from MCHS with honors but also graduated from Southwest with Technical Certificates in Engineering Technologies in 2007. However, enrollment in the program dropped after Memphis City Schools eliminated MCHS student access to Southwest’s Keyboarding courses (which supported 51 MCHS students in 2005-06). During the 2006-07 academic year, a total of 94 MCHS students participated in Early College Program in 2006-07 (41% of 230 MCHS students). (91%+ attainment for the year, 37% cumulative attainment for five-year strategic planning cycle)

**2007-08**

**Projected Results:** The tracking and monitoring system will be expanded with Cohort 4 (entering 2007-08 ninth graders). The Early College program will be extended to more students. As a result, at least 45% of MCHS students will participate in the Early College Program.

**Actual Results:** A total of 118 MCHS students (46%) participated in the Early College Program. (100%+ attainment for the year, 58% cumulative attainment for five-year strategic planning cycle)

(Note: Benchmark was changed from 50% to 45% in August 2007 due to decisions by Memphis City Schools to delete Keyboarding from the list of eligible dual enrollment courses.)
**Objective 1.1.1—Early College Program, continued**

**2008-09**  
**Projected Results:** The tracking and monitoring plan will be expanded to include a report of student progress; specifically Cohort 1 will be evaluated for the number of MCHS students that enroll at Southwest Tennessee Community College to complete the A.A. degree. Continue tracking and monitoring system, adding Cohort 5 (2008-09 entering ninth graders). The Early College program will be extended to more students. As a result, at least 50% of MCHS students will participate in the Early College Program.

**Actual Results:** In June 2008, Southwest notified Middle College High School that the college would not allow the high school to continue using college property after June 30, 2009. Participation in the Early College program then declined considerably. During 2008-09, only 75 MCHS students (34% of the student body) participated in the Early College program.

**Attainment Level:** 64% attainment for the year, 90% cumulative attainment for the five-year strategic planning cycle.

**2009-10**  
Because the working relationship between Southwest and MCHS was terminated effective June 30, 2009, strategic initiative 1.1.1 was considered to be concluded as of that date, and its 2009-10 benchmark was cancelled.
Southwest Tennessee Community College
2005-2010 Strategic Planning Goals and Achievements

TBR Priority 1. LEADERSHIP

Southwest Goal 1.1 Strengthen and enhance the college’s impact in the community

<table>

Coordination: Extended Programs (J. Bassett, H Taylor, A. Shead, D. Penna)

Supports: TBR Institutional Outcome 1.2: Workforce Development

Baseline Year and Description: 2005-06

The college implements several activities that promote workforce development training and continuing education, including the recent implementation of the Tennessee Small Business Development Center. However, the college does not have an inclusive formal organized entity that ensures a strategic, systematic approach to providing education and training to meet the needs of business and industry.

Annual Benchmarks and Actual Performance

2005-06

No benchmarks for 2005-06. Project will begin in 2006-07.

*However, in preparation for the project’s first operational year (2006-07), a survey instrument was planned to assess how effectively the college provides education and training to meet client needs in business and industry in the service area.*

2006-07

**Projected Results:** Assess strengths and weaknesses of existing organizational structure of the college’s workforce development and continuing education units. Restructure where necessary to ensure the necessary support for implementing strategic changes.

**Actual Results:** The Division of Continuing Education and Workforce Development conducted an extensive review of programs, resources, and client needs. Afterwards the division reorganized to emphasize business, career, and customized training services. The Workforce Development Center was phased out as the new organization of services was initiated. Under the new organization, annual action plans were established to achieve each year’s objective and benchmark. *(100% attainment for the year, 25% cumulative attainment for five-year strategic planning cycle)*

2007-08

**Projected Results:** Establish contacts with external organizations to select representatives of small, midsize, and large businesses to serve as members of the Coalition.

**Actual Results:** The college reorganized its structure and strategies for Workforce Development. Rather than form a coalition with local businesses, the college focused its organizational resources on the expansion of services and the initiation of new collaborations with major employers.

The new Workforce Development Support Department will provide its services to all aspects of the business community. During 2007-08, the department began job skills testing for approximately 8,000 employees of the City of Memphis. The Continuing Education department will continue to work with business groups to provide non-credit programs and, when appropriate, credit courses. The unit will also work with academic units to meet the emerging needs of the workplace. *(100% attainment for the year, 50% cumulative attainment for five-year strategic planning cycle)*
Objective 1.1.2—Workforce Development, continued

2008-09  **Projected Results:** Develop, implement, and assess survey research to determine the level and types of skills needed by the community’s workforce. Develop a database of information on workforce development needs.

**Actual Results:** The College conducted a community-wide survey of businesses and industries and identified key training needs—some already addressed by current programs and some in new areas. The College began offering new OSHA classes and established a partnership to offer online courses on Green Technologies. (100% attainment for the year, 75% cumulative attainment for the five-year strategic planning cycle)

2009-10  **Projected Results:** Provide workforce development service to at least 5* new businesses and agencies based on employer needs identified in the prior year’s survey research.

*(Note: The benchmark was revised in August 2008 to support organizational changes at the college. The original benchmark that specified six specific types of service was broadened to address any needs identified on the 2008-09 employer survey).*

**Actual Results:** The College provided workforce development services to an additional 5 organizations, including Shelby County Election Commission, Chandler Demolition, Family Home Health Agency, and the Memphis Academy of Science and Engineering .

**Attainment Level:** 100% attainment for the year, 100% cumulative attainment for the five-year strategic planning cycle

</tr>
</tbody>
</table>

**Annual Benchmarks and Actual Performance**

2005-06  Projected Results: A faculty summit will be conducted on service learning. An advisory committee will be established to develop mission, broad goals, and expected outcomes for a service learning course. Guidelines will be designed for incorporating service learning component into existing courses.

Actual Results: A faculty summit was conducted on service learning principles and practices. The new Advisory Committee developed guidelines for course-embedded service learning activities. Two courses now incorporate a formal service learning component. (100% attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)

2006-07  Projected Results: Service learning activities will be incorporated into at least one additional course in the Honors Academy. A new course will be designed in service learning through the Honors Program. Course designs will be submitted to curriculum committee for review and approval. As a result, at least 2 course sections will contain formal service learning component.

Actual Results: Service learning opportunities and experiences were incorporated fully into two courses (Introduction to Social Work and Honors Inquireree). Additionally, a faculty summit was conducted on service learning principles and practices. A new Advisory Committee was established to support further development of the program. (100% attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)

Documentation: Course syllabi containing service learning requirements and resources are on file in Office of Planning and Analysis.

2007-08  Projected Results: A new course on service learning will be offered while service learning components are continued in other courses. As a result, at least 3 course sections will contain formal service learning component.

Actual Results: Two new courses were offered that contained formal service learning components, resulting in a total of four courses that provide students with service learning opportunities and credit. (100%+ attainment for the year, 80% cumulative attainment for five-year strategic planning cycle)

2008-09  Projected Results: Service learning opportunities will be expanded for students by including formal service learning component in at least 1 new class sections in the Division of Liberal Studies and Education. As a result, at least 4 course sections in the Division of Liberal Studies and Education will contain formal service learning component.

Actual Results: Twelve new courses were offered that contained formal service learning components, resulting in a total of 15 courses that provide students with service learning opportunities and credit. (100%+ attainment for the year, 100% cumulative attainment for five-year strategic planning cycle)
Objective 1.1.3  Service Learning, Continued

2009-10  Projected Results: Service learning opportunities will be expanded for students by including formal service learning component in at least 1 new class sections in the Division of Liberal Studies and Education. The achievement of service learning course outcomes will be assessed to determine needs or opportunities for continuation, change, or expansion. As a result, at least 5 courses sections in the Division of Liberal Studies and Education will contain formal service learning component.

Actual Results: Thirty-one new courses were offered that contained formal service learning components, resulting in a total of 46 courses (90 sections) that provide students with service learning opportunities and credit.

Attainment Level: 100%+ attainment for the year, 100% cumulative attainment for five-year strategic planning cycle

Financial and Administrative Services *(J. Bassett, E. Adams, J. Avery)*

**Supports**
TBR Institutional Outcome 1.4: Effective Use of Technology

**Baseline Year and Description**

*2004-05*
(1) The college has insufficient control over the local area network (LAN) to prevent unauthorized wireless or wired connections which could expose the college to virus and worm attacks and to unauthorized access to network-based resources.
(2) Currently, technicians must physically visit a client site to diagnose & solve problems with desktop systems. This use of human resources could become more efficient by using new technology to perform most maintenance functions remotely.
(3) The college has numerous buildings, doors, and facilities (e.g., computer labs) that require flexible and effective access control. Flexible access control is also needed to provide authorized use of resources such as copiers and printers. These applications would be addressed by effective deployment of a campus card.
(4) Streaming video services need to be deployed to support distance education services. The college network has the principal prerequisites to support this.
(5) The distance education and instructional technology program currently utilizes the following technology: 33 twenty-first century classrooms, 54 classrooms with ceiling mounted projectors and computers, and 2 outdated servers for Distance Education Courses.

**Annual Benchmarks and Actual Performance**

*2005-06*

**Projected Results:**
(1) Infrastructure Services will acquire and deploy authentication resources that will prevent unauthorized access to the college network and related resources.
(2) Client Services will acquire and deploy resources that support remote problem diagnosis and resolution.
(3) The college will develop specifications for a campus card system that will support access control, declining balance accounts, and related functions.
(4) Instructional technology will be expanded by converting three regular classrooms into twenty-first century classrooms and by installing 10 multimedia projectors and computers in other classrooms.
(5) Distance education instruction and communication services will be improved by replacing pre-merger servers.

**Actual Results:**
(1) Infrastructure Services deployed an authentication service on the wireless network to ensure that only authorized students gain access to the network.
(2) Windows-XP Remote Assistance software was installed to support remote problem diagnosis and resolution.
(3) Technical specifications were developed for a new campus card system.
(4) Five regular classrooms were converted into 21st Century classrooms, and multi-media equipment was installed in 15 other classrooms.
(5) Pre-merger servers were replaced with a new and more powerful server to support distance education instruction and communication services.

*(100% attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)*
Objective 1.1.4–Technological Infrastructure, Continued

2006-07  
**Projected Results:** (1) The college will acquire campus card software and appropriate hardware to secure access to critical buildings and facilities; the software will also control and monitor access to college copiers and printers. Initial deployment will include existing copiers and a limited number of doors. (2) Infrastructure Services will collaborate with Distance Education and Instructional Technology to deploy streaming video services for general academic use. (3) Instructional technology will be expanded by converting three regular classrooms into twenty-first century classrooms and by installing 10 multimedia projectors and computers in other classrooms.

**Actual Results:** The infrastructure and application of administrative and instructional technology expanded during 2006-07. (1) College developed specifications for campus card software and hardware to be purchased and deployed the next fiscal year. (2) Streaming video was deployed for academic use. (3) Six classrooms were converted to 21st Century classrooms, and 23 classrooms received multimedia projectors. (80% attainment for the year, 36% cumulative attainment for five-year strategic planning cycle)

2007-08  
**Projected Results:** Instructional technology will be expanded by converting three regular classrooms into twenty-first century classrooms and by installing 10 multimedia projectors and computers in other classrooms.

**Actual Results:** Southwest converted four regular classrooms into twenty-first century classrooms and installed multimedia projectors in 10 additional classrooms. (100%+ attainment for the year, 56% cumulative attainment for five-year strategic planning cycle)

2008-09  
**Projected Results:** Instructional technology will be improved by replacing or upgrading equipment in 5 twenty-first century classrooms and by installing 10 multimedia projectors and computers in other classrooms.

**Actual Results:** Southwest converted nine regular classrooms into twenty-first century classrooms and installed multimedia projectors in 15 additional classrooms. (100%+ attainment for the year, 80% cumulative attainment for five-year strategic planning cycle)

2009-10  
**Projected Results:** Instructional television systems in Fulton 201 and A-201 will be replaced or upgraded.

**Actual Results:** With the opening of the new academic classroom building on the Macon Cove Campus, Southwest revised its equipment upgrade schedule, converted three regular classrooms into twenty-first century classrooms, and installed multimedia projectors in 14 additional classrooms.

**Attainment Level:** 100%+ attainment for the year, 100% cumulative attainment for five-year strategic planning cycle
Southwest Tennessee Community College

<td>Baseline Year and Description</td>
<td>2004-05 Southwest Tennessee Community College has made arrangements to provide on-site admissions counseling in five city and county high schools. Space is being secured for identifiable offices in the schools.</td>
</tr>
</tbody>
</table>

**Annual Benchmarks and Actual Performance**

2005-06 **Projected Results:** An identifiable office with direct computer links to the Southwest network will be established in one (1) high school to support student admissions, financial aid, academic advising, and career exploration assistance.

**Actual Results:** Southwest’s high school initiative, “Project College,” established working relationships with four high schools. Computers with connections to Southwest were installed at Southside and East high schools. Programs for faculty, financial aid, and recruiting were conducted at Carver and Hamilton high schools. *(100% attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)*

2006-07 **Projected Results:** An identifiable office with direct computer links to the Southwest network will be established in two (2) high schools to support student admissions, financial aid, academic advising, and career exploration assistance.

**Actual Results:** The High School Initiative continued its collaboration with Memphis City Schools and Shelby County Schools. Offices with computer links to Southwest were established in Southside, East, and Bartlett High Schools. Additionally, major information sessions were conducted with students at Hamilton High School. *(100% attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)*

2007-08 **Projected Results:** An identifiable office with direct computer links to the Southwest network will be established in three (3) high schools to support student admissions, financial aid, academic advising, and career exploration assistance.

**Actual Results:** The High School Initiative continued with additional schools in the Memphis City Schools and the Shelby County Schools. Currently, as part of the high school initiative, Southwest has placed computers for student use in the following high schools: Hamilton, Southside, Booker T. Washington, Carver, Bartlett, East and Arlington. *(100%+ attainment for the year, 100%+ achievement for five-year strategic planning cycle)*
Objective 1.1.5 – High School Initiative, Continued

2008-09  Projected Results: An identifiable office with direct computer links to the Southwest network will be established in four (4) high schools to support student admissions, financial aid, academic advising, and career exploration assistance.

Actual Results: Southwest maintained the High School Initiative with computer stations in seven high schools in the Memphis City and Shelby County school systems. Currently, as part of the high school initiative, Southwest continued to provide computers for student use in the following high schools: Hamilton, Southside, Booker T. Washington, Carver, Bartlett, East and Arlington.

Attainment Level: 100%+ attainment for the year, 100%+ achievement for five-year strategic planning cycle

2009-10  Note: During 2008-09, seven (7) high schools participated in the High School Initiative, exceeding the intended number of schools (4) to receive computer technology support for their students. By 2009, the seven (7) high schools began utilizing their own expanded computer technologies instead of Southwest’s systems. The strategic initiative was considered to be concluded effective June 2009.
Southwest Goal 2.1  Provide access and commitment to meet the needs of a diverse community

Objective 2.1.1  Reorganize structure and services of Student Services area

Coordination  
Student Services and Enrollment Management (C. Tosh)

Supports  
TBR Institutional Outcome 2.1: Increasing the Rate and Participation In Higher Education of Targeted Populations

Baseline Year and Description  
2004-05  
Currently, the Academic and Student Affairs units report to the Provost. The college has assessed the potential for growth in enrollment and the need to strengthen and enhance student support services. A national search will be completed for hiring a new Vice President For Student Services and Enrollment Management.

Annual Benchmarks and Actual Performance

2005-06  
Projected Results: The Division of Student Services and Enrollment Management will be created and organized for maximum effectiveness based on an analysis of recruitment, enrollment, retention, and financial aid impact.

Actual Results: A Vice President of Student Services and Enrollment Management was hired to establish a new division and strengthen recruitment, enrollment, and retention processes. The division was configured to emphasize “one-stop” enrollment and a student–centered environment. Work practices were assessed, units were reorganized, and employee cross-training was initiated.  (100% attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)

2006-07  
Projected Results: (1) The structural revisions and administrative staffing for the new division of Student Services and Enrollment Management will be completed. (2) Division objectives for student recruitment, retention, and services will be established with quantitative measures for monitoring progress.

Actual Results: The new organization of the Student Services and Enrollment Management area was institutionalized during 2006-07. (1) Organizational restructuring and staffing was completed. (2) Objectives were established for student recruitment, retention, and services. Additionally, “one-stop” enrollment environments was established on the Union Avenue and Macon Cove campuses with admissions, records, financial aid, advising, disability, VA services, and career services in nearby areas. The cross-training of both professional and support staff was initiated.  (100% attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)

2007-08  
Projected Results: A comprehensive enrollment management plan will be designed and implemented with recruitment, enrollment, and retention strategies to establish a student-centered environment, improve services, and meet student needs. Initial implementation emphasis will be placed upon student recruitment.

Actual Results: The “2007-2009 Enrollment Plan” was created and implemented in fall 2007 with goals and objectives for retention, services, and marketing. Additions were incorporated to the plan in June 2008. For the 2007-08 year, emphasis was placed on recruiting targeted populations. (i.e. traditional high school students, non-traditional students and various sub populations of those groups, such as dually enrolled, home-schoolers, etc.). Supporting activities were on-going or completed.  (100% attainment for the year, 60% achievement for five-year strategic planning cycle)
Objective 2.1.1–Student Services Reorganization, continued

2008-09  **Projected Results:** (1) The effectiveness of the recruitment strategies in the Enrollment Management Plan will be assessed. Services and activities will be enhanced as appropriate. (2) Retention strategies outlined in the Enrollment Management Plan will be implemented

**Actual Results:** New recruitment, retention, and other enrollment management activities were implemented. Southwest gained a 6.5% increase in new students and a 7.3% increase in continuing students. *(100% attainment for the year, 80% achievement for five-year strategic planning cycle)*

2009-10  **Projected Results:** The effectiveness of both recruitment and retention strategies in the Enrollment Management Plan will be assessed. Services and activities will be enhanced as appropriate.

**Actual Results:**
- Increased fall 09, spring 10, and summer10 enrollments by 13.9%, 10.7%, and 16.8%, respectively
- Increased the number of enrolled Hispanic students by 5% in Fall 2009
- Completed the first step in creating a “paperless” environment by implementing document imaging in admission and records
- Created the Partnership Enrollment Program (PEP) and hosted signing in collaboration with the University of Memphis
- Created an Evening Call Center to assist the working adult population receiving admissions, records and financial aid information
- Experienced increased usage of the Optimal Resume Software by 10%. Over 350 new resumes were created while 1500 students visited the site in search of information
- Implemented the Technical Scholars Internship Program with 12 students awarded, allowing students practical experience related to their major, earn credit for work through co-op, cover tuition cost and earn book stipend
- Compiled and distributed an information packet for distribution to GED recipients to assist with the Admissions process to the College and faster processing of GED transcripts
- Increased Non Traditional Lottery Scholarship recipients by 131 students due to automation of letters targeted to potential adult students at Southwest that may have been eligible for the scholarship.
- Completed renovation of the recruiting office to create an inviting “Welcome Center” for prospective students
- Held 1st annual Job Fair for Southwest Graduates
- Expanded the Student Leadership Institute to involve 3 additional clubs
- Student clubs successfully integrated social issues in their activities leading to increased participation
- Held 25 GED classes (ECO) at 10 location throughout the year; a waiting list was also created
- Translated the EOC website into Spanish; click on Mexican Flag for Spanish version
- Advisortrac 4.0 was installed and is in use, providing an excellent tracking system for advising students as well as documenting advice given and students served

*Attainment Level: 100% attainment for the year, 100% achievement for five-year strategic planning cycle*
Southwest Tennessee Community College
2005-2010 Strategic Planning Goals and Achievements

TBR Priority 2.  ACCESS TO LEARNING

Southwest Goal 2.1  Provide access and commitment to meet the needs of a diverse community

<table>

<th>Establish collaborative partnership with Fayette County public schools to address educational needs of at-risk students</th>
</tr>
</thead>
<tbody>
<tr>
<td>Coordination</td>
<td>Academic Affairs (J. Bassett, H. Taylor, R. Wells)</td>
</tr>
<tr>
<td>Supports</td>
<td>TBR Institutional Outcome 2.1: Increasing the Rate and Participation In Higher Education of Targeted Populations</td>
</tr>
<tr>
<td>Baseline Year</td>
<td>(2004-05) Southwest currently offers computer technology support to Fayette Ware High School and occasional dual enrollment classes. No regular schedule of student assistance or instruction is in place. A more extensive partnership is needed. Discussions with school system and community leaders secured commitment to establish such a partnership.</td>
</tr>
</tbody>
</table>

**Annual Benchmarks and Actual Performance**

**2005-06**

Projected Results: Partnership will be established between Fayette Ware High School and Southwest to address educational needs of at-risk students and increase their ability to enroll in higher education. Financial aid/scholarship workshop will be offered while additional support services to students are being designed. As a result, at least 15 Fayette Ware High School students will participate in the financial aid and scholarship workshop.

Actual Results: Southwest offered several financial aid/scholarship workshops at Fayette-Ware High School in Fayette County; 150 students participated. Additionally, 50 students participated in ACT-PREP classes. *(100% attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)*

**2006-07**

Projected Results: ACT Prep workshop will be offered along with financial aid/scholarship workshop. Selected FWHS faculty will be trained to teach a course in academic success. As a result, at least 25 Fayette Ware High School students will participate in the financial aid and ACT preparation workshops.

Actual Results: Participation in the collaborative partnership with Fayette County Schools expanded dramatically. During 2006-07, the entire high school (595 students and 41 parents) participated in financial aid workshops. Additionally, 76 students participated in ACT preparation workshops. The faculty training for an academic success course was postponed by the high school. *(100%+ attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)*

**2007-08**

Projected Results: Academic success course will be offered along with financial aid and ACT Prep workshops. An annual assessment of progress will be initiated. As a result, at least 50 Fayette Ware High School students will participate in the financial aid workshop and the ACT Preparation workshop.

Actual Results: The expanded orientation of Fayette Ware Comprehensive High School students on college and financial aid opportunities continued with 634 students participating in financial aid workshops and 33 students participating in ACT preparation workshops. *(100%+ attainment for the year, 60% achievement for five-year strategic planning cycle)*

*(Note: The offering of Academic Success classes was deleted from the benchmark in August 2007 by request of the high school principal because of insufficient high school time or resources to design and implement the course at the secondary school level.)*
Objective 2.1.2–Fayette County Educational Partnership, continued

2008-09  **Projected Results:** Collaborative partnership activities will be adapted or expanded according to prior year assessment results. As a result, at least 60 Fayette Ware High School students will participate in the financial aid workshop and the ACT Preparation workshop.

  **Actual Results:** The expanded orientation of Fayette Ware Comprehensive High School students on college and financial aid opportunities continued with 594 students participating in financial aid workshops and 75 students participating in ACT preparation workshops. *(100%+ attainment for the year, 80% achievement for five-year strategic planning cycle)*

2009-10  **Projected Results:** Collaborative partnership activities will to be implemented while the early impact upon Fayette Ware High School and Southwest Tennessee Community College is being analyzed. As a result, at least 70 Fayette Ware High School students will participate in the financial aid workshop and the ACT Preparation workshop.

  **Actual Results:** The expanded orientation of Fayette Ware Comprehensive High School students on college and financial aid opportunities continued with 823 students participating in financial aid workshops.

  **Attainment Level:** 100%+ attainment for the year, 100% achievement for five-year strategic planning cycle

<td>Based on a measured and demonstrated need to provide workforce for an emerging job market, Southwest proposed and received TBR and THEC approval to implement an AAS degree in Biotechnology. Because of program approval dates, actual implementation was delayed until 2005-06.</td>
</tr>
</tbody>
</table>

**Annual Benchmarks and Actual Performance**

2005-06  **Projected Results:** The first courses of the new degree will be offered and will enroll at least 5 students.

**Actual Results:** The Biotechnology program was implemented in 2005-06. The program’s first course was offered in the 2006 Spring Semester with an enrollment of 5 students. *(100% attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)*

2006-07  **Projected Results:** The program will expand its set of sequenced courses for completing the degree. At least 12 students will enroll in Biotechnology courses.

**Actual Results:** The new Biotechnology program expanded its curriculum to include all courses for the degree. Fifteen (15) students enrolled in Biotechnology courses. Additionally, the program expanded its collaboration with Memphis BioWorks. *(100% attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)*

2007-08  **Projected Results:** The program will offer a complete set of sequenced courses for completing the degree. At least 10 students will declare their majors to be the new Biotechnology A.A.S. degree program.

**Actual Results:** During 2007-08, 24 students declared majors in Biotechnology. *(100%+ attainment for the year, 60% achievement for five-year strategic planning cycle)*

2008-09  **Projected Results:** The program will graduate its first students with the AAS degree in Biotechnology. At least 15 students will declare their majors to be the new Biotechnology A.A.S. degree program.

**Actual Results:** During 2008-09, 53 students declared majors in Biotechnology, and 5 students graduated with the AAS in Biotechnology Technician. *(100%+ attainment for the year, 80% achievement for five-year strategic planning cycle)*

2009-10  **Projected Results:** The program will graduate at least 5 students with the AAS degree in Biotechnology.

**Actual Results:** During 2008-09, two students graduated with the AAS in Biotechnology Technician. **Attainment Level:** 40% attainment for the year, 88% achievement for five-year strategic planning cycle
Objective 2.1.4   Develop a Certificate in Homeland Security

Coordination Academic Affairs (J. Bassett, M. Stephens, B. Smith)
Supports TBR Institutional Outcome 2.2: Demonstrating “Fit” of Programs and Services for Existing and Emerging Job Markets
Baseline Year and Description 2004-05
College personnel met with Memphis-area Homeland Security Office, police departments, fire departments, and key businesses to determine training needs. College personnel also met with national Homeland Security Office to learn national specifications for college-level certificate programs in homeland security.

Annual Benchmarks and Actual Performance

2005-06 Projected Results: The new Technical Certificate in Homeland Security will be designed and proposed to TBR. If approved, the sequence of courses will be adapted as appropriate to become online (distance education) courses.
Actual Results: The Technical Certificate in Homeland Security was designed by the College, approved by TBR, and announced to the general public. Two of the first three courses were designed for online instruction. The first classes will be offered during the 2007 Spring Semester. (100% attainment for the year, 25% cumulative attainment for five-year strategic planning cycle)

2006-07 Projected Results: The new certificate program will be announced to local agencies, businesses, and the public. Enrollment in the program will begin.
Actual Results: The new certificate program in Homeland Security was not only designed and publicized but also initiated fully. Twelve students enrolled in the first class. (100% attainment for the year, 50% cumulative attainment for five-year strategic planning cycle)
Documentation: Screen print of Homeland Security course (MGMT-2050) class roster is on file in Office of Planning and Analysis.

2007-08 Projected Results: The program will graduate its first students with a Technical Certificate in Homeland Security.
Actual Results: Four students graduated with a Technical Certificate in Homeland Security in 2007-08. (100% attainment for the year, 75% achievement for five-year strategic planning cycle)

2008-09 Projected Results: The program will begin graduating at least 10 students per year with a Technical Certificate in Homeland Security.
Actual Results: One student graduated with a Technical Certificate in Homeland Security in 2008-09. However, enrollment in the program had grown to 83 students, and future graduation rates should meet anticipated levels.
Attainment Level: 10% attainment for the year, 78% achievement for five-year strategic planning cycle

2007-08

Projected Results: Campus beautification plan for FY08 improvements will be implemented. Text messaging, blue lights and voice warning sirens will be implemented for campus safety. Entrances will be constructed for the Macon and Union Campuses.

Actual Results:

Campus beautification plan for FY08 improvements has been implemented with these improvements: Irrigation system for the Macon Courtyard and decorative fencing; street clocks provided for the Macon and Union campuses; outdoor furniture for outdoor classrooms; outside structural painting for the Union Campus.

Safety improvements have been implemented, including an emergency text messaging service and outdoor campus warning system; additional lighting for the Macon parking lot; fire safety improvements for the Farris Building and Butler Building; upgrades to the elevators at Union; electrical upgrades at the Gill Campus.

A new entrance has been constructed for the Macon Campuses. Improvements to the entrance at Union and Linden included new sidewalks and decorative fencing. A flag pole was installed at the Whitehaven Campus.

(100% attainment for the year, 33% cumulative attainment for five-year strategic planning cycle)

2008-09

Projected Results: Enhancements to campus beautification plans and card access to 21st century classrooms will be completed during FY09.

Actual Results:

Campus improvements went beyond the campus beautification plan in 2008-09. A fountain was installed in the lake at the Macon Cove Campus. Beyond that, improvements were made to the Macon Cove Campus Cafeteria, restrooms were brought up to ADA standards on both the Macon and Union campuses, and emergency telephone stanchions were installed on the Macon and Union campuses and parking lots.

The card access project was delayed until new software could be procured to support the security system. (90% attainment for the year, 67% achievement for five-year strategic planning cycle)
Objective 2.1.5—Enhance Environment, Continued

2009-10  Projected Results: Further enhancements to campus beautification plans, satellite telephones for Police Services, and card access to all classrooms will be completed during FY10.

Actual Results:

The entrance to the Macon Campus behind the Whitehead Building was landscaped; the street was widened; fence removed; and flowers planted. A decorative gate was installed on the Maxine Smith Campus. The interior of the Farris Building was painted. Additional restrooms were brought up to ADA standards on all campuses. Card access was installed in the Bert Bornblum library; boiler was replaced.

Attainment Level: 80% attainment for the year, 90% achievement for five-year strategic planning cycle
Southwest Tennessee Community College
2005-2010 Strategic Planning Goals and Achievements

<tr>
<td>and Description</td>
<td>The college developed and refined its overall diversity plan. During this time, several initiatives were implemented to improve the diversity of the college-level student body and the capability of employees to support the institution’s diverse student body, faculty, and staff.</td>
</tr>
</tbody>
</table>

**Annual Benchmarks for Measuring Achievement**

**New Objective Beginning 2008-09**

**2008-09**

**Projected Results:** Southwest will ease access for first generation college students, working adults, high school students, and disadvantaged college students to the college through diversity initiatives, helping at least 200 students through Project Advance, the STAY program, and the Developmental Math Supplemental Instruction program.

**Actual Results:** Diversity funds for Recruitment and Retention funded the Enrollment Services Assistants who provided one on one follow up with all new and new transfer students who came through the Advising office. The Assistants reached 1,587 students over the fiscal year. The goal of the follow up was to develop more informed students as they moved through the Admissions and Registration process. Calls were also made in the middle of the first term to answer questions and offer information regarding spring 2009 advising opportunities. Each student was contacted a minimum of three times between initial application to the college and the completion of the first term of enrollment. (100% attainment for the year, 50% cumulative attainment for five-year strategic planning cycle)

**2009-10**

**Projected Results:** Southwest will ease access for first generation college students, working adults, high school students, and disadvantaged college students to the college through diversity initiatives, helping at least 250 students through Project Advance, the STAY program, and the Developmental Math Supplemental Instruction program.

**Actual Results:** The Office of Retention and Graduation was created and an Executive Director was appointed. The Office of Retention and Graduation consolidates and focuses the efforts of Project Advance and the Academic Resource Center. The Office of Special Academic Programs houses Dual Enrollment for high school students pursuing college credit, the STAY Program that provides tuition and textbook funding for graduates of the Dual Enrollment program, the Developmental Math and Reading Supplemental Instruction Programs that provide tutoring assistance and Academic Intervention Management which supports students on academic probation. Through the above efforts, 631 first generation college students, working adults, high school students, and other disadvantaged students were supported (40 students in Supplemental Reading, 40 students in supplemental Math, 6 Students funded by STAY, 48 students serviced by Academic Intervention Management, and 397 Dual Enrollment students).

**Attainment Level:** 100% attainment for the year, 100% cumulative attainment for five-year strategic planning cycle

<tr>
<td><strong>and Description</strong></td>
<td>Only 64% of the last entering class of nursing students completed their program within the prescribed period of time.</td>
</tr>
</tbody>
</table>

**Annual Benchmarks and Actual Performance**

2005-06  **Projected Results**: At least 66% of nursing students who began in the class of 2003-04 will complete the program in 2005-06.

**Actual Results**: Nursing program initiatives increased the completion rate of its students; 70.3% of the 2003 Nursing class completed the program by 2005-06.  
(100% attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)

2006-07  **Projected Results**: At least 68% of nursing students who began in the class of 2004-05 will complete the program in 2006-07.

**Actual Results**: The Nursing department continued its successful efforts to increase student completion rates. By Spring 2007, 76.1% of the 2004 Nursing class completed the program and graduated. Additionally, over 95% of nursing graduates passed their licensure exams on the first attempt during 2006  
(highest pass rate in Tennessee).  
(100% attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)

2007-08  **Projected Results**: At least 70% of nursing students who began in the class of 2005-06 will complete the program in 2007-08.

**Actual Results**: The Nursing Department continued to provide a high quality of training and support to its students, with the result that 71.8% of the class of 2005-06 graduated by 2007-08.  
(100% attainment for the year, 60% cumulative attainment for five-year strategic planning cycle)

2008-09  **Projected Results**: At least 72% of nursing students who began in the class of 2006-07 will complete the program in 2008-09.

**Actual Results**: The Nursing Department provided high quality of training and support to its students. As an effect of the economic recession, 13 students dropped out of the program to support their families, with the result that 65% of the class of 2006-07 graduated by 2008-09.  
(90% attainment for the year, 78% cumulative attainment for five-year strategic planning cycle)

2009-10  **Projected Results**: At least 74% (2003-04 national mean) of nursing students who began in the class of 2007-08 will complete the program in 2009-10.

**Actual Results**: The Nursing Department continued to improve its quality of training and support to its students, with the result that 75.7% of the class of 2006-08 completed the program by 2010.

**Attainment Level**: 100% attainment for the year, 98% cumulative attainment for five-year strategic planning cycle
Southwest Goal 3.1 Provide educational programs and college services that enhance effective learning

Objective 3.1.2 Provide state-of-the-art facilities that are aesthetically pleasing, safe, and environmentally friendly and that enhance the learning experience

(Note: The wording but not the substance of strategic objective 3.1.2 was revised in August 2007 to clarify its intent.)

Coordination Financial and Administrative Services (R. Parr)

Supports TBR Institutional Outcome 3.1: Effective Programs and Services

Baseline Year and Description 2004-05

Plans are being developed for the construction of a nursing, natural sciences and biotechnology facility on the Union Avenue campus. Major facility maintenance is limited by the lack of State funds or locally designated college funds for renovations, major repairs, or other improvements. Entrances to both major campuses are on side streets with no discernable main entrance.

Annual Benchmarks and Actual Performance

2005-06

Projected Results: (1) Funding will be secured for the construction of a biotechnology facility on the Union Avenue Campus.
(2) Planning and programming will be completed for the construction of a new library/academic building to replace the Parrish and Jennings Buildings as well as temporary structures (trailers)
(3) Main entrances to both the Macon and Union Campuses will be designed.
(4) A long range campus beautification plan will be developed.
(5) A College commitment of current, recurring funds will be utilized to establish and replenish, on an annual basis, a plant fund dedicated to major physical facility repairs.

Actual Results: (1) $2,428,701 in funding was secured for the biotechnology facility on the Union Campus.
(2) Designs and development programs were prepared for the Macon Cove Campus Library and Academic Building.
(3) Designs for campus entrances were prepared for the Macon Cove Campus and the Union Avenue Campus.
(4) Plans were prepared for long-range campus beautification projects.
(5) The College contributed $570,000 during 2005-06 toward major physical facility repairs.

100% attainment for the year, 25% cumulative attainment for five-year strategic planning cycle)

2006-07

Projected Results: (1) Additional funds will be secured for technology infrastructure and equipment in the biotechnology facility.
(2) Construction of a new Macon Cove Campus library will begin in May 2007
(3) Construction will begin on a new Macon Cove Campus academic building in July 2007
(4) Entrances will be constructed for the Macon and Union Campuses.
(5) Campus beautification plan will be implemented
(6) Construction of a new facility in southeast Shelby County will begin in November 2007.

Actual Results: Major facility improvement activities were conducted during 2006-07.
(1) $200,000 was dedicated to providing equipment for the Bioworks program.
(2, 3, 4) Construction of the Macon Campus library, academic building, and new entrance was underway.
(5) Campus beautification plan was implemented.
(6) Construction of the new southeast facility was scheduled for November 2007.

100% attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)
Objective 3.1.2–Facilities Improvements, continued

2007-08  Projected Results:
(1) Construction of the library on the Macon Cove Campus will be 80% complete.
(2) Construction of the academic facility on the Macon Cove Campus will be 25% complete.
(3) Construction of the new southeast facility will be 25% complete.
(4) Updated Facilities Master Plan will include a study of the parking at Union and the location of the proposed Nursing Building.

Actual Results:
(1) Construction of the library on the Macon Cove Campus is over 90% complete.
(2) Construction of the academic facility on the Macon Cove Campus is 15% complete.
(3) Construction of the new southeast facility is 20% complete.
(4) Facilities Master Plan includes a study of the parking at Union and the Medical Center.
(100% attainment for the year, 60% achievement for five-year strategic planning cycle)

(Note: Benchmarks were revised in August 2007 to reflect actual construction schedules.)

2008-09  Projected Results:
(1) Construction of the library on the Macon Cove Campus will be 100% complete.
(2) Construction of the academic facility on the Macon Cove Campus will be 50% complete.
(3) Construction of the new southeast facility will be 50% complete.
(4) The vacated Parrish, Jennings, Butler buildings and trailers on the Macon Cove Campus will be razed.

Actual Results:
(1) The library on the Macon Cove Campus was fully completed and occupied.
(2) Construction of the academic facility on the Macon Cove Campus was 60% complete.
(3) Construction of the new southeast facility was 80% complete.
(4) The Parrish, Jennings, Butler buildings and trailers on the Macon Cove Campus will be razed only after the new academic facility has been completed to accommodate faculty in the buildings to be razed.
(100% attainment for the year, 80% achievement for five-year strategic planning cycle)

2009-10  Projected Results:
(1) Construction of the academic facility on the Macon Cove Campus will be 100% complete.
(2) Construction of the new southeast facility will be 100% complete.

Actual Results:
(1) The Academic Building on the Macon Cove Campus was fully completed and occupied.
(2) The Maxine Smith Center facility that replaced the former Southeast Center was fully completed and occupied.

Attainment Level: 100% attainment for the year, 100% achievement for five-year strategic planning cycle

<td>TBR Institutional Outcome 3.2: Effective Recruitment, Development, and Retention of Faculty As the Primary Resource In Academic Program Improvement (2004-05) The college conducted a number of faculty development activities each year with the support of up to $40,000 in funds designated for that purpose. However, the college did not have an organization to implement a comprehensive and systematic faculty development program.</td>
</tr>
<tr>
<td>Baseline Year and Description</td>
<td></td>
</tr>
</tbody>
</table>

**Annual Benchmarks and Actual Performance**

2005-06  **Projected Results:** An organizational plan will be developed for the Center for Faculty Development (CFD) housed within the Center of Emphasis for Teaching and Technology. The CFD will administer a survey of faculty development needs with at least 75 of the faculty responding. As a result, at least 20 faculty training opportunities will be listed on a new CFD website.  

**Actual Results:** The Center for Faculty Development was established with its own campus website; 35 faculty training opportunities were published on the website.  

(100% attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)

2006-07  **Projected Results:** The Center for Faculty Development (CFD) will administer a survey of adjunct faculty development needs with at least 25 adjunct faculty responding. The CFD will create a systematic faculty development program based on at least 5 needs identified in the survey administered in 2005-06. As a result, at least 24 faculty training opportunities will be listed on the CFD website. Also, at least 100 faculty will participate in faculty development activities offered during the academic year.  

**Actual Results:** The Center for Faculty Development expanded its service extensively to serve a large number of full-time and adjunct faculty during 2006-07. A faculty survey resulted in 7 new workshops being scheduled to meet identified needs. Over all, a total of 171 training sessions (including self-paced training modules) were scheduled and served 141 faculty members, most of whom participated in multiple sessions.  

(100%+ attainment for the year, 40% cumulative attainment for five-year strategic planning cycle)

2007-08  **Projected Results:** The Center for Faculty Development (CFD) will administer a survey of faculty development needs with at least 80 faculty responding. Faculty development activities will be offered to faculty in support of identified needs. As a result, at least 28 faculty training opportunities will be listed on the CFD website. Also, at least 110 full-time and 20 adjunct faculty will participate in faculty development activities held during the academic year.  

**Actual Results:** The Center for Faculty Development website listed 34 faculty training opportunities. Throughout the year, 154 full-time and 32 adjunct faculty members participated in training sessions.  

(100%+ attainment for the year, 60% achievement for five-year strategic planning cycle)
Objective 3.1.3 – Faculty Development Center, Continued

2008-09  Projected Results: The Center for Faculty Development (CFD) will administer a survey of adjunct faculty development needs with at least 35 adjunct faculty responding. Faculty development activities will be offered all faculty in support of identified needs. As a result, at least 32 faculty training opportunities will be listed on the CFD website. Also, at least 120 full-time and 25 adjunct faculty will participate in faculty development activities held during the academic year.

Actual Results: The Center for Faculty Development website conducted 53 faculty training opportunities during 2008-09. Throughout the year, 225 full-time and 49 adjunct faculty members participated in training sessions. (100%+ attainment for the year, 80% achievement for five-year strategic planning cycle)

2009-10  Projected Results: The Center for Faculty Development will administer a survey of faculty development needs with at least 90 faculty responding. Faculty development activities will be offered all faculty in support of identified needs. As a result, at least 130 full-time and 30 adjunct faculty will participate in faculty development activities held during the academic year.

Actual Results: The Center for Faculty Development website conducted 98 faculty training opportunities during 2009-10. Throughout the year, 222 full-time and 85 adjunct faculty members participated in training sessions.

Attainment Level: 100%+ attainment for the year, 100% achievement for five-year strategic planning cycle

</table>
| and Description | (1) The college maintains a small budget for staff development but does not have a college-wide, comprehensive employee development program. No professional staff development personnel are employed.  
(2) Southwest recognizes two areas of immediate need for staff development programming: customer service training and campus police training. Customer service training is currently provided on an ad hoc basis. Campus police personnel are presently only required to complete Basic Police Academy training and continue forty hours of in-service a year in order to maintain certification. |

**Annual Benchmarks and Actual Performance**

**2005-06**  
**Projected Results:**  
(1) The college will conduct a search for a qualified professional to design, coordinate, and conduct staff development activities.  
(2) A college-wide staff development program will be designed to support training for customer service, campus police, and other areas such as supervisory training.  

**Actual Results:**  
(1) A search for a qualified staff development professional was conducted with the position to be filled in early FY 2006-07.  
(2) Supervisory training modules which included supervision and emergency management were developed. Emergency management training was delivered to campus-wide management, and supervisory skills training was delivered to the Physical Plant.  

*(100% attainment for the year, 33% cumulative attainment for five-year strategic planning cycle)*

**2006-07**  
**Projected Results:**  
(1) An in-house professional development and leadership institute will be created. The institute will include a mentoring program. Routinely scheduled customer service training will be provided to all college personnel. Tools for assessing employee orientations on customer service will be acquired, customized, and implemented.  
(2) A training program for campus police and public safety personnel will be implemented. The program will include activities such as Terrorism Countermeasure, Post-Incident Containment, Emergency Reaction Procedures, Patrol and Survival Tactics.  

**Actual Results:**  
The staff development program expanded during 2006-07. A coordinator for staff development was selected. Workshops and seminars were conducted for personnel in seven organizational areas of the college. The campus police training that began in 2005-06 was continued.  

*(100% attainment for the year, 67% cumulative attainment for five-year strategic planning cycle)*
Objective 3.1.4 – Staff Development, Continued

2007-08  Projected Results:
(1) Ongoing customer service skill-building training will be provided to all front-line College employees.
(2) A field training program will be implemented for campus police officers. Each new officer will be
assigned to a Field Training Officer during their probation period.

Actual Results: An extensive customer service training program was implemented throughout the
college. Operational units conducted staff development in customer service, exposing all front-line
employees to skill building training. Additionally, over 17% of the college’s administrative employees
attended additional customer service workshops. The field training program for campus police officers
was determined not to be needed until the next year.

Attainment Level: 100% attainment for the year, 100% achievement for five-year strategic planning cycle

</tbody>
</table>

Annual Benchmarks and Actual Performance

2005-06 Projected Results: A cohort of developmental students will be identified and three years of their enrollment data will have been compiled for submission to NADE.

Actual Results: The Developmental Studies program identified a student cohort, compiled five years of enrollment data, and, following new NADE guidelines, submitted the final application for certification to the National Association for Developmental Education. (100% attainment for the year, 80% cumulative attainment for five-year strategic planning cycle)

2006-07 Projected Results: A completed preliminary application will be prepared and submitted to NADE.

Actual Results: Southwest not only submitted a final (not preliminary) application to the National Association for Developmental Education but also received the first award of certification to a community college in the United States under the new NADE standards. This recognition of Southwest’s quality completed the strategic objective fully.

Attainment Level: 100%+ attainment for the year, 100%+ achievement for five-year strategic planning cycle

Documentation: Copy of the NADE certification is on file in the Office of Planning and Analysis.

<td>2004-05 Southwest’s Quality Enhancement Plan (QEP) was resubmitted to SACS for approval. The revised QEP seeks to improve student engagement and student learning in the AAS degree program in Office Administration (OFAD).</td>
</tr>
</tbody>
</table>

**Annual Benchmarks and Actual Performance**

**2005-06** **Projected Results:** (1) **Student Engagement.** OFAD faculty will define and communicate clear expectations for student engagement in classes, learning activities, and the program through published standards for classroom attendance and learning behavior.  
(2) **Student Learning.** OFAD faculty will create a comprehensive set of program outcomes, identify possibility of capstone courses in each concentration, and develop a plan for assessing the consistency of graduate exam measures based on program and course outcomes.  

**Actual Results:** (1) **Student Engagement.** Office Administration policies and guidelines for student attendance and learning behaviors were published, posted, and included in syllabi.  
(2) **Student Learning.** Office Administration faculty specified degree program learning outcomes, established some course outcomes, identified a potential capstone course, and developed a plan for matching course assessments with an exit exam assessment. * (100% attainment for the year, 33% cumulative attainment for five-year strategic planning cycle) |

**2006-07** **Projected Results:** (1) **Student Engagement.** OFAD faculty will assess the effectiveness of standards for classroom attendance and learning behavior.  
(2) **Student Learning.** OFAD faculty will create a comprehensive set of course outcomes. OFAD faculty will assess the extent to which learning outcomes are clearly defined in program descriptions, syllabi, and websites. OFAD faculty will also assess the consistency of graduate exit exam measures with published program outcomes.  

**Actual Results:** The Office Administration (OFAD) program continued its implementation of Southwest’s Quality Enhancement Plan (QEP). The program conducted all QEP activities and identified better ways of improving how the program could improve student learning. (1) OFAD faculty found that the new standards for student professional conduct contributed to the quality of classroom participation. (2) OFAD faculty and the OFAD advisory committee began assessing program learning outcomes and recommended use of WIDS curriculum development system to complete the project. The assessment and improvement of consistency between outcomes and exit tests will be extended into the next fiscal year. * (85% attainment for the year, 61% cumulative attainment for five-year strategic planning cycle)
Objective 3.1.6–Quality Enhancement Plan, continued

2007-08  
**Projected Results:**
(1) **Student Engagement.** OFAD faculty will update student engagement standards, methods of communication.
(2) **Student Learning.** OFAD faculty will assess the extent to which learning outcomes are clearly defined in course descriptions. OFAD faculty will update student learning outcome descriptions and assessment measures. OFAD faculty will also disseminate project results and processes to other programs.

**Actual Results:** The OFAD faculty completed all QEP tasks. The success of some QEP initiatives received such attention that other departments began utilizing elements of the QEP.

**Attainment Level:** 100% attainment for the year, 100% cumulative attainment for five-year strategic planning cycle.

</tr>
</tbody>
</table>

Annual Benchmarks and Actual Performance

2005-06 Projected Results: Peer institution benchmarking project will be initiated, including the collection of public data, initial contacts with selected institutions, an analysis of available data, and a tentative data peer comparison format.

Actual Results: The College initiated its peer institution benchmarking project by selecting eleven peer institutions, collecting detailed data from the peers, establishing a format for profiling the peers, designing plans for a consortium for peer data sharing, and initiating the analysis of data collected. (100% attainment for the year, 50% cumulative attainment for five-year strategic planning cycle)

2006-07 Projected Results: Peer institution benchmarking project will expand to include cost study data and provide comparative analyses of data for use in college decision making processes, such as salaries and program budget levels.

Actual Results: The use of Kansas Study data on academic program costs was found to be useful in college planning and budgeting. In a pilot test, cost study data was analyzed to determine whether specific academic programs should receive special reviews on costs prior to budgeting. For one program, the current cost was already lower than the benchmark year. For another program, the costs were the same high level as the benchmark year. In both cases, the costs were due to the high salaries of very senior tenured faculty in each department. While no changes in staffing or budgeting were required in these instances, the process of reviewing costs in relation to benchmarks was proven to be useful and will be applied in future fiscal years.

Attainment Level: 100% attainment for the year, 100% achievement for five-year strategic planning cycle

**Supports**
TBR Institutional Outcome 4.2: Attainment of Other Sources Of Support

**Baseline Year and Description**
2004-05
The Major Gifts Campaign, *Southwest & You: Investing in the Future*, has raised a total of $360,022 in pledges and donations toward the $11,000,000 goal for the Nursing, Natural Science and Biotechnology Facility.
(2) Through March 31, 2005, 76% of college grant applications were funded for total awards of $2,695,196.
(3) Workforce Development programming for low-income and historically excluded populations was expanded by establishing new partnerships with two community agencies, submitting two grant applications, and securing funding for one grant.

Annual Benchmarks and Actual Performance

2005-06
**Projected Results:**
(1) The Major Gifts Campaign will secure at least $2,750,000 for the Nursing, Natural Sciences and Biotechnology Facility (25% of the goal).
(2) The total dollar amount of grant and other proposals funded will be at least 10% over the 2004-05 baseline funding.
(3) Workforce development programming for low income and historically excluded populations will be increased by adding at least 2 community partnerships and submitting at least 2 grant applications.

**Actual Results:**
(1) Major Gifts Campaign received $2,428,701 toward the new facility (22% of the goal).
(2) The college received $3,882,997 in grants, 44% above the 2004-05 baseline.
(3) Workforce Development added 2 community partnerships and submitted 5 grant applications to support low income and historically excluded populations.

(100% attainment for the year, 20% cumulative attainment for five-year strategic planning cycle)

2006-07
**Projected Results:**
(1) The Major Gifts Campaign will achieve 50% ($5,500,000) of its goal for the Nursing, Natural Sciences and Biotechnology Facility.
(2) The total dollar amount of grant and other proposals funded will be at least 10% over the 2004-05 baseline funding (at least $2,964,700).
(3) Workforce development programming for low income and historically excluded populations will be increased by adding at least 2 community partnerships and submitting at least 2 grant applications.

**Actual Results:**
Southwest continued to gain considerable external resources to support college efforts.
(1) A cumulative total of $3,518,985 has been raised through fiscal year 2006-07 by the Major Gifts Campaign (64% of its FY07 goal of $5,500,000). (2) $4,248,745 has been received in grants (143% of its goal of $2,964,700). (3) New workforce development partnerships were established with Memphis City Schools, two local unions, and three local companies. (87% attainment for the year, 37% cumulative attainment for five-year strategic planning cycle)
Objective 4.1.2—Annual Benchmarks and Actual Performance, continued

2007-08
Projected Results:
(1) The Major Gifts Campaign will receive at least $4,400,000 (69%) of its $6,400,000 goal for the Nursing, Natural Sciences, Biotechnology facility.
(2) The total dollar amount of grant and other proposals funded will be at least 10% over the 2004-05 baseline funding.

Actual Results:
(1) The Major Gifts Campaign raised $4,712,643 for the Nursing, Natural Sciences and Biotechnology Facility in 2007-08, exceeding its goal of $4,400,000 by 7 percent. This represents 74 percent of its $6,400,000 five-year goal.
(2) The Grants Office raised $4,792,309 in 2007-08 from new grants, other new proposals and renewals. This represents an increase of 61% above the 2004-05 baseline amount of $2,964,700 and a 13% increase over 2006-07.
(100%+ attainment for the year, 60% cumulative attainment for five-year strategic planning cycle)

(Note: Two benchmarks were revised in August 2007 to reflect institutional changes. The Major Gift Campaign goal of $11,000,000 was revised to $6,400,000 to match new program plans, and the FY09 target of $11,000,000 was revised to $5,400,000 accordingly. The workforce development partnerships benchmark was deleted with the 2007 closure of the Workforce Development Center.)

2008-09
Projected Results:
(1) The Major Gifts Campaign will receive at least $5,400,000 (84%) of its $6,400,000 goal for the Nursing, Natural Sciences, Biotechnology facility.
(2) The total dollar amount of grant and other proposals funded will be at least 10% over the 2004-05 baseline funding.

Actual Results:
(1) The Major Gifts Campaign raised a cumulative total of $6,754,721 for the Nursing, Natural Sciences and Biotechnology Facility in 2007-08, exceeding its FY09 benchmark of $4,400,000 by 54 percent. This represents 106% of its $6,400,000 five-year goal.
(2) The Grants Office raised $4,134,630 in 2008-09 from new grants, other new proposals and renewals. This represents an increase of 39% above the 2004-05 baseline amount of $2,964,700. (100%+ attainment for the year, 80% cumulative attainment for five-year strategic planning cycle)

2009-10
Projected Results:
(1) The Major Gifts Campaign will receive at least $6,400,000 (100%) of its $6,400,000 goal for the Nursing, Natural Sciences, Biotechnology facility.
(2) The total dollar amount of grant and other proposals funded will be at least 10% over the 2004-05 baseline funding.

Actual Results:
(1) The Major Gifts Campaign raised a cumulative total of $7,202,743 for the Nursing, Natural Sciences and Biotechnology Facility in 2007-08, exceeding its FY09 benchmark of $4,400,000 by 54 percent. This represents 113% of its $6,400,000 five-year goal.
(2) The Grants Office raised $3,301,803 in 2009-10 from new grants, other new proposals and renewals. This represents an increase of 11% above the 2004-05 baseline amount of $2,964,700.

<tr>
<td>Baseline Year and Description</td>
<td>2004-05 The Tennessee Small Business Development Center (TSBDC) currently has two office locations and three counselors that provide a minimum of 3,500 counseling hours and 75 training events per year in both Shelby and Fayette Counties.</td>
</tr>
</tbody>
</table>

Annual Benchmarks and Actual Performance

2005-06 Projected Results: TSBDC will improve access to services by adding one additional offsite office (for a total of 2) in either Shelby or Fayette County.

Actual Results: With the use of a USDA Rural Development Grant, a resource center was opened at the Chamber of Commerce office in Somerville to provide small business counseling and training services to the citizens in Fayette County. (100% attainment for the year, 25% cumulative attainment for five-year strategic planning cycle)

2006-07 Projected Results: TSBDC will improve access to services by adding one additional offsite office (for a total of 3) in either Shelby or Fayette County and by hiring an additional counselor and increasing annual counseling time from 3,500 to 4,750 hours.

Actual Results: The Tennessee Small Business Development Center expanded and revised its scope of service as required under an updated contract with its funding agency. TSBDC hired an additional counselor and provided 3,750 hours of one-on-one small business counseling sessions. The Center also conducted over 120 workshops for small businesses. A new site for a third office was located in Millington, and negotiations were initiated for securing the site during 2007-08. All contractual requirements were met fully during 2006-07. (100% attainment for the year, 50% cumulative attainment for five-year strategic planning cycle)

2007-08 Projected Results: TSBDC will improve access to services by finalizing plans and opening an additional office in Millington, Tennessee.

Actual Results: TSBDC established a new office at the University of Memphis Center in Millington, Tennessee, to serve business needs in north Shelby County. (100% attainment for the year, 75% cumulative attainment for five-year strategic planning cycle)

(Note: The 2007-08 benchmark was revised in August 2007 from increasing counseling time to establishing a new service office because of revisions to the funding contract for the Tennessee Small Business Development Center.)
Strategic Objective 4.1.3  Expand TSBDC, Continued

2008-09  Projected Results: TSBDC will improve access to services by adding one additional offsite office (for a total of 4) in Shelby or Fayette County.

Actual Results: TSBDC improved access to its services in both Shelby and Fayette counties through special initiatives rather than by creating an additional office site because of limited personnel and budget resources. Five substitute initiatives were implemented. (1) TSBDC partnered with Tennessee’s Small and Minority Owned Business Loan Program to provide access to capital for West Tennessee businesses. (2) TSBDC created opportunities within STCC’s College of Business for college professionals to work with Memphis small businesses. (3) TSBDC partnered with the Small Business Chamber to promote TSBDC services and healthy businesses in West Tennessee via a city-to-city bike tour from Nashville to Memphis. (4) TSBDC offered business research capabilities to chamber members in Shelby and Fayette counties. (5) TSBDC developed a Veteran’s Business Opportunities Handbook as a guide to promote and assist veteran businesses in the State of Tennessee.

Southwest Goal 4.1 Optimize current resources and expand sources of support

Objective 4.1.4 Improve fiscal accountability and management
(New for 2007-2010)

Coordination Financial and Administrative Services (R. Parr)

Baseline Year and Description 2006-07
The college prepares financial statements annually. Electronic methods for purchases, disbursements, and timesheets are possible through the new Banner system.

Annual Benchmarks for Measuring Achievement

2007-08 Projected Results: Financial books will be closed and financial statements will be prepared by TBR deadline with no material findings. On-line requisitioning in Purchasing and debit cards to disburse financial aid refunds will be implemented.

Actual Results: Financial books were closed and financial statements were prepared by deadline set by TBR. No findings cited by TBR. On-line requisitioning exists for some units of operations. Debit cards are being used to disburse financial aid refunds. (100% attainment for the year, 33% cumulative attainment for five-year strategic planning cycle)

2008-09 Projected Results: Financial books will be closed and financial statements will be prepared by TBR deadline with no material findings. Web-entry timesheets will be implemented. Commerce management system (comprehensive software solution) will be implemented to provide state-of-the-art services to web-savvy students, parents, and alumni.

Actual Results: Financial books will be closed and financial statements prepared by TBR deadline with no material findings. Best practices in Business Services have been implemented with operational efficiencies realized. Support staff was reduced by 12%. (90% attainment for the year, 67% cumulative attainment for five-year strategic planning cycle)

2009-10 Projected Results: Kronos will become operational in lieu of Web-entry software. R-25 software will allow all scheduling of classrooms, conference rooms, vehicles, etc. All software will be installed and operational by June 30, 2010.

Actual Results: Kronos employee timekeeping system was installed and operational in May 2010. The R-25 room scheduling software was installed August 2009. Because of the upgrading of the college administrative computing system to Banner 8.0, the R-25 software was replaced in November 2009 with Event-U room scheduling software.

Attainment Level: 100% attainment for the year, 100% cumulative attainment for five-year strategic planning cycle
